```

1. Which files are executable?
2. What are the directories?
3. What files and folders are hidden?
4. What files can be read by everyone?
5. What command (and parameters) did I most likely use to generate the file listing above?

Answer the following questions (2 points each):

6. How many root name servers currently exist? List one.
7. Who is the Technical Contact for the Edinboro.edu domain? How did you arrive at that answer?
8. Explain the function of a recursive DNS server.
9. Explain the purpose of a CNAME record, and give an example of where one might be used.
10. What is an advantage of the classless IP addressing system?
11. What is a DNS Glue record?
12. The top most servers in the DNS hierarchy are called what?
13. What does TLD stand for? Give an example of two TLD's.

Answer the following questions:

14. Find the following DNS values for the **ultrastuff.net** domain (5 points):

Serial number:

NS Servers (hostnames and IP):

MX Server:

Registry Expiration Date:

15. Given the following **classless** IP addresses, determine the IP address range (4 points).

IP Address	Starting IP	Ending IP	Subnet Mask
192.168.0.0/24			
10.11.1.0/16			
147.64.243.0/23			
8.8.8.8/20			

16. Given the following **classful** IP addresses, determine the IP class, network ID, and host ID (5 points).

IP Address	IP Class	Network ID	Host ID
192.168.0.1			
252.65.32.77			
24.93.201.102			
147.64.32.6			
8.8.8.8			

17. List one of each of the following DNS records for google.com (5 points).

Record Type	Record
A	
AAAA	
NS	
MX	
SOA	

Save your answers to a file named Lastname_Firstname_HW5 and submit your file(s) in D2L to the Dropbox folder HW5.
